**COOLSYSTEM**  The logo for COOLSYSTEM, featuring the word "COOLSYSTEM" in a bold, grey, sans-serif font, followed by a green snowflake icon with a registered trademark symbol (®).

Please provide us with the following information to calculate your benefit

### Brewhouse type – wort boiling system

Internal wort boiling system with circulation pump

Internal wort boiling system without circulation pump

External wort boiling system

Boiling time in minutes \_\_\_\_\_ Total dosage alpha acid in kg \_\_\_\_\_

Volume cold wort in HL \_\_\_\_\_ Brews/ year \_\_\_\_\_

Quantity thins per brew and total dosing \_\_\_\_\_

### Average hop dosing output

1. Bitter units in cold wort \_\_\_\_\_

2. More exactly iso-alpha acid effectiveness in %  
or mg/ l iso-alpha acids measured in cold wort \_\_\_\_\_

3. Bitter units measured in fermented beer \_\_\_\_\_

A screenshot of your brewhouse control would be helpful for our calculations.
